

Welcome to
<O> HORIZON 47

Welcome to a new sound experience

Horizon 47 is all about innovation and will change your perception of furniture. Combining powerful design with the most advanced technology, we aim to deliver a unique sound experience and create perfect ambiances.

Moon will definitely surprise you

Moon represents a new vision in sound integration and takes his mission very seriously. This unique product was developed along a path paved with our dreams and passions. This is how we express ourselves, and how we want you to experience our product.

Providing a superb sound experience

Using cutting edge technology and based on advanced R&D, Horizon 47 is proud to present an exclusive product for all sound lovers. Built to create an unforgettable sound experience, Moon can surprise all users, even the most demanding ones. Imagine having an armchair with an exclusive design and an innovative electroacoustic system, completely hidden, that can give you a complete and surrounding sound experience. This is Moon!

Designed to impress

Moon takes the aesthetics to another level. H47 design process is built on three fundamental cores: aesthetics, comfort and experience. All the lines and shapes of Moon were designed through passionate precision. We care about every detail and we design to create an amazing user experience. Moon can blend in perfectly to your ambiance, taking it to whole new level.

Using the best materials...

Combining the power of natural premium materials with the most revolutionary finishes, Moon represents the state of the art in comfort and design. Empowered by the natural and sustainable properties of wood and the most advanced fabrics, a cutting edge expression is achieved.

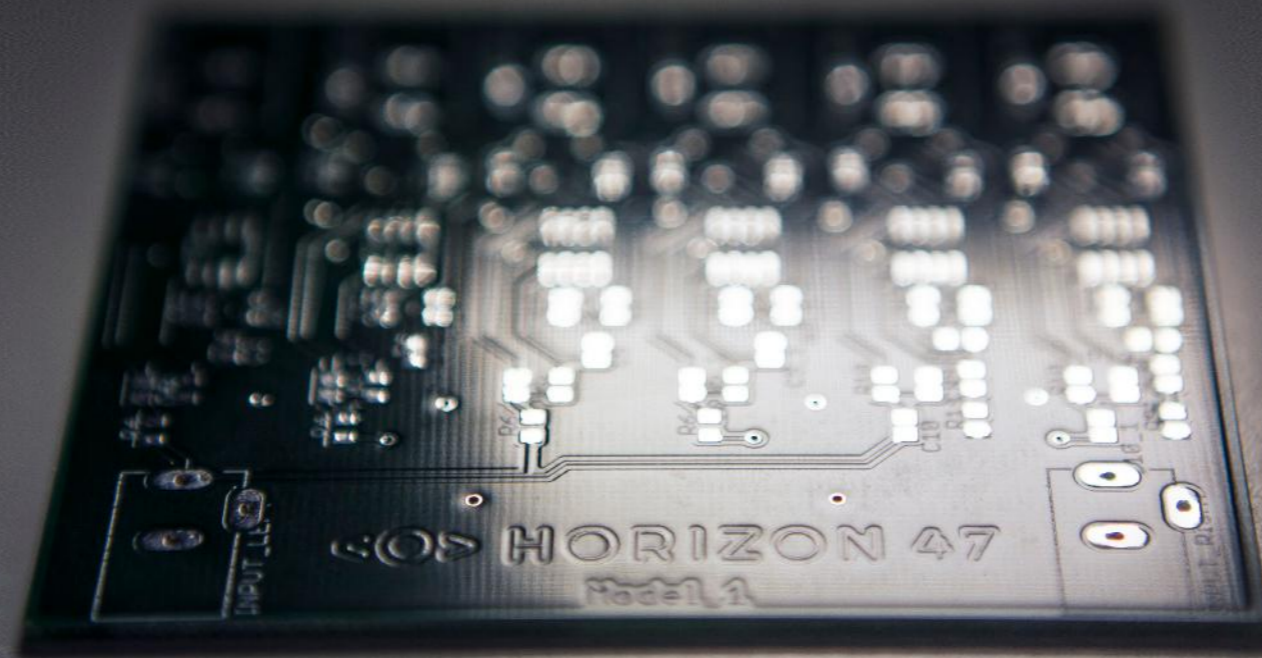

... and making it more comfortable

Comfort is a key role in our product. Our designers and engineers have carefully studied the form and ergonomics of every curve and plane, shaping a perfect structure for an ultimate comfort experience.

There is a lot going inside Moon

Moon has the appearance of a usual armchair, with an amazing design and luxurious finishes. But it's far more than that! Inside Moon, an advanced electroacoustic system is hidden, that takes advantage of the integral structure to act as a speaker and create a unique sound experience.

A revolutionary idea comes alive

H47 decided to take an innovative, ground-breaking technological approach on sound system integration in furniture. Moon rises to completely revolutionize this experience. The goal was to create a product with contemporary design and a hidden acoustic system, making it completely unique and going strongly against all the solutions that are available in the market.

With an incredible performance

The implementation of the acoustic system was carefully studied by the R&D team and includes three specific areas for sound reproduction. Each one is responsible for sound emission in a specific frequency range: low (subwoofer), medium (mid-range) and high (tweeter). All these speakers are in different spots and synced to allow a flat and optimized frequency response, allowing the creation of a product with unbeatable quality.

Optimized for you. Created for everyone

Moon is optimized to create an incomparable sound involvement to the user. But this product has far more to offer. Using the exterior structure as a speaker it is possible to bring this magnificent experience to the outside, creating great, immersive atmospheres. That makes of Moon an incredible and exclusive product for Lounge areas.

Luxurious Finishes for optimized performance

Beyond the aesthetics, all the materials and finishes were studied carefully to allow an advanced acoustic experience and empower the global performance of the product. A 100% solid wooden structure finished with velvet painting and high quality fabrics.

Connect Moon to your World

Using Bluetooth technology you can connect Moon to your daily devices. Use your smartphone, laptop or smart TV and share your sound with everyone. Take a seat, connect and enjoy this amazing journey.

Taking your environment to a whole new level

Enjoy Moon in the comfort of your home or create a luxurious ambiance for your hotel clients. Moon is also great for your office workspace or for an amazing food experience at your restaurant. With high technology, advanced design and great finishes, Moon is perfect for a night, urban or natural spot. Customers will feel much better in spaces where everything is linked and you can connect service, products and emotions.

CHAMPAGNE

A unique brand designed for our clients

We designed a unique brand that translates our emotion and love for the business. Not only the business but all our partners and community. We aim the creation of a global network of partners that simplifies processes and create the best experience for all clients. Dedicated to a high professional business we are here to be your partner and create new and innovative products for your life.

We want you to feel special

H47 has always in mind that each client is different and so their motivations and tastes. We don't want to produce standard units. We believe you're special on your own way. That's why we work hard on customization. Combine fabric with velvet paint and choose the perfect colours to incorporate Moon perfectly in your ambiance.

We want to bring all of
this to you...

...and we want you to
join us in this journey.
